Be safe at work

Free Covid-19 testing

Protect yourself, your colleagues and your customers with free Covid-19 testing.

Around one in three people with coronavirus show no symptoms. This means you could be spreading the virus around your workplace without knowing it.

To help prevent this, make sure you take a rapid test twice a week. They're free of charge and give results in just 30 minutes.

Here's how to get hold of the tests:

- Go to a drive-through site at Camborne, St Austell or Liskeard – book here **https://getatest.vdt.app/cc**

- Pick up a test at a local collection site. Find your nearest one here:: **https://find-covid-19-rapid-test-sites.maps.test-and-trace.nhs.uk/**

- Collect from a pharmacy - check to see if there is one in your area here: **https://maps.test-and-trace.nhs.uk/**

- If you can't make use of these options, you can order tests to be delivered to your home here: **www.gov.uk/order-coronavirus-rapid-lateral-flow-tests**

For more information, visit **www.cornwall.gov.uk/coronavirus** and click 'Information on getting a test'
